CREATIVE ENTRANCES

ART DOORS • FINE WOODWORK

INSPIRED ENTRANCES CONTRIBUTE TO CREATIVE ARCHITECTURAL STRUCTURES

**Yorgen Quent Kvinsland**, Principal Artist for **ARTSTRUCT**, formed the company with the mission of creating high quality, intriguing entrances of artistically-based functional design.

Kvinsland's belief is that an entrance is a blank canvas for creative expression and personal enrichment. An **ARTSTRUCT** door reflects the owner's personality and individualism while creating a lasting impression for the visitor.

An identifying signature developed by **ARTSTRUCT** is a wooden end-grain pattern, where sections of the end grain texture may be replaced with original artwork either from the **ARTSTRUCT** collection or introduced by the client.

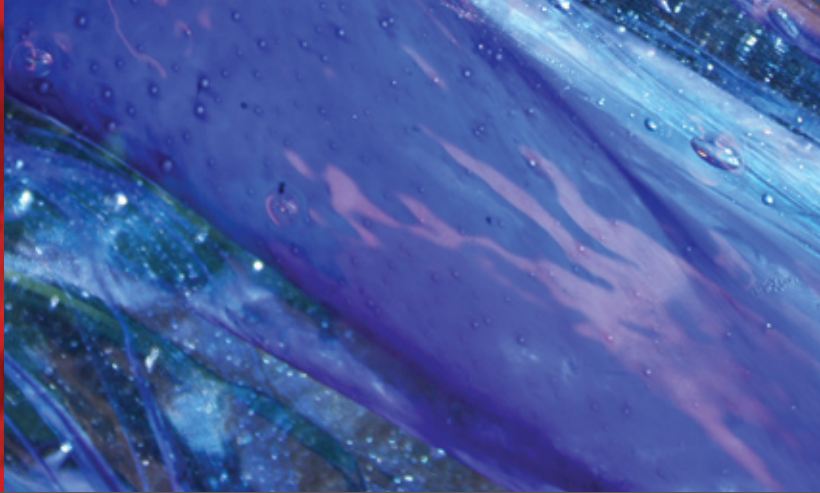

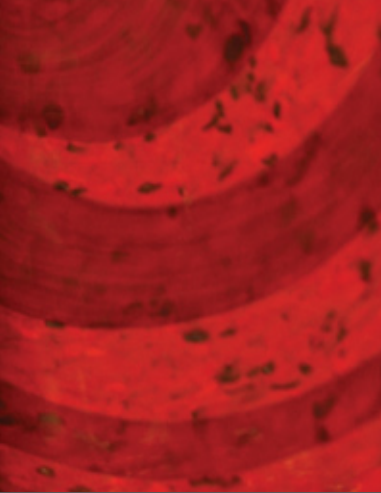

**ARTSTRUCT** art doors are crafted, rather than manufactured, using materials of permanent quality. The variety of art materials and wood grain direction sets the construction of these doors apart from standard frame and panel. The doorframes are held together mechanically through the time-honored tradition of mortise and tenon. They are constructed to last for generations.

Each **ARTSTRUCT** door is an original, merging craft, creative design, fine workmanship, and art.

*An entryway  
is a focal point,  
an opportunity to  
make a memorable  
impression.*
